

Talking to the child about their ASD diagnosis

Autism Spectrum Disorder is a complex condition, which even adults find hard to comprehend. Often parents are unsure about whether to disclose the child's diagnosis of Autism or Asperger Syndrome to them, and how to go about this.

This session for parents and professionals covers:

- Reasons to disclose the child's diagnosis to them
- When to tell, how to tell and what to tell the child with ASD
- Useful resources to assist the process

About the presenter: Julia Seedsman is a psychologist with sixteen years' experience working with children with Autism Spectrum Disorder.
