

Autism Spectrum Disorder and eating difficulties

Some children with Autism Spectrum Disorder eat a very limited diet. Many parents are at a loss as to how to address their child's restricted diet.

This session for parents and professionals covers:

- Reasons that a child with ASD might limit the range of foods eaten
- Some practical ideas on how to increase the variety in a child's diet
- Other food related difficulties; preoccupations, fears of food
- Encouraging appropriate mealtime behaviours

About the presenter: Julia Seedsman is a psychologist with sixteen years' experience working with children with Autism Spectrum Disorder.

Date: Wednesday 20th July, 2016
