psychology

Neurotypical

The term *neurotypical* refers to people who have not received a diagnosis of Autism Spectrum Disorder, or another challenge. Neurotypical individuals think in the way typical of the majority of the population. The term *neurotypical* is used by Wendy Lawson, an adult with Asperger Syndrome.

Diffability

The term *diffability* refers to the fact that people with Autism Spectrum Disorder, and other challenges have a difference in abilities, rather than an absence of ability (DISability). The term *diffability* is used by Wendy Lawson, an adult with Asperger Syndrome.
